Table Injury; Influenza (Flu) Vaccine;
Guillain-Barre Syndrome (GBS)

Phillip S. Georges, Phillip S. Georges, PLLC, Nashville, TN, for Petitioner.

Colleen Clemons Hartley, U.S. Department of Justice, Washington, DC, for Respondent.

RULING ON ENTITLEMENT¹

On October 22, 2020, Richard Miszewski filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that he suffered from Guillain-Barre Syndrome (“GBS”) as a result of an influenza (“flu”) vaccine he received on January 22, 2018. Petition at 1. Petitioner further alleges his GBS has persisted for more than six months. Petition at ¶ 69. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On March 21, 2022, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at

¹ Because this unpublished Ruling contains a reasoned explanation for the action in this case, I am required to post it on the United States Court of Federal Claims’ website in accordance with the E-Government Act of 2002. 44 U.S.C. § 3501 note (2012) (Federal Management and Promotion of Electronic Government Services). **This means the Ruling will be available to anyone with access to the internet.** In accordance with Vaccine Rule 18(b), Petitioner has 14 days to identify and move to redact medical or other information, the disclosure of which would constitute an unwarranted invasion of privacy. If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all section references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2012).

1. Specifically, Respondent “concluded that Petitioner’s alleged GBS is consistent with the Vaccine Injury Table for GBS following the seasonal flu vaccination, and that it was caused-in-fact by the flu vaccine he received on January 22, 2018. *Id.* at 7. Respondent “found that the timing of the onset of Petitioner’s symptoms fell within 3 to 42 days.” *Id.* Respondent further agrees that “Petitioner’s records show that he suffered the sequela of his injury for more than six months after vaccination.” *Id.*

In view of Respondent’s position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
